Comments:

TRE is a wonderful and effective addition to the modalities I work with at Tattwamassi Healing Centre.

As well as the above qualifications I also work with sound. I began this wonderful journey about 15 years ago and have now had many years experience not only teaching music and singing to children and adults but also running workshops around the country on sacred sound and chant. I also have tutored in practical philosophy for many years.

My focus at Tattwamassi is to use whatever modality is most appropriate to help people discover their truth and live optimal lives
