- Dip. In Special Education (Unisa)
- Family Constellations therapist, facilitator

I was shot in a hi-jacking and healed mentally, but TRE showed me that my body remembered the trauma. I experience TRE as a journey of integrating healing of body and mind, marvelling daily in my increased sense of aliveness, well-being and the magic of living and loving. The journey has taken me from experiencing vulnerability, to a fierce empowering primal rage. It is so liberating to experience such diverse emotions.
