

## **Agnes Kernan RN,BSc.,DHom Med. CMT, HMCC**

Agnes has a very extensive background in Orthodox and Alternative Medicine. She is an Nurse Practitioner who turned to Homoeopathy when her child became ill. Trained in London as a Homeopath and had a very successful practice in Harley St and The Hale Clinic.

She has searched most of her life for a healing modality that would directly address the cause of illness. Agnes has been led down many paths and finally found TRE which she feels has ended the search. Combines all her knowledge and experience and uses TRE in her current practice.
