COMMENTS:

Marilyn McIntosh has a paramedical background specializing in Clinical and Chemical Pathology and was a member of research teams investigating paediatric free fatty acids and later the disease mechanism and treatment of porphyria.

Life interests and other fields of study include Hatha yoga, Meditation, Breath work and Breathing Techniques, Nutrition, Natural Healing, Reiki, Art of Living, Universal Energy and Pranic Healing.

The quest for physical and spiritual integration, growth and wholeness led her to the expansive, life changing blessing of TRE which she now shares with others.
