COMMENTS:

I am a Senior Executive in a very competitive Corporate arena managing +- 500 staff along with the operations within the Western Cape for Leading Financial Institutions. Challenges arise daily & change occurs daily & one needs to adapt rapidly in order to stay on top of your game and accompanying this, is the individual's needs as well. Thus it is crucial to remain balanced in order to balance ones life from a business perspective as well as from a personal perspective. Therefore I am able to offer this to other corporate clients, as I utilize this method for myself.
