COMMENTS: Shaun works with clients taking them through the Trauma Release Exercises to help with stress release, anxiety and difficulty sleeping. This body based healing mechanism removes the toxic build-up of trauma in the body and can be used to clear old patterns of muscular tension and trauma lodged in the body over a lifetime, without having to 'tell the story'.

Shaun is also a Teacher and High School Counsellor. His areas of interest are in Leadership, using Poetry as a tool of expression and helping learners and adults connect to their purpose.
