

Dr Melanie Salmon MB BCh(Rand)

Dr Salmon is a South African Medical Doctor who worked most of her adult life in the UK as a GP. She also practiced Gestalt Psychotherapy and the newest energy medical modalities which she studied in the UK and USA and Europe.

Through her experience with patients of chronic diseases, stress and trauma, she sought to find “another way” to facilitate healing that did not involve lengthy “talk therapies” and drugs, both of which, in her opinion are marginally successful.

She trained in TRE with David Berceli in 2009 and after using this on herself and with patients she believes she has found this “other way” she had been seeking.

She moved back to South Africa with her husband, also trained in TRE, to provide TRE training and therapy alongside her own new method of working called Quantum Energy Coaching. She is organizing Dr Berceli’s visit to South Africa in April 2010 to provide the first wave of level one training in this country.
